

## Used Auto Dealer

In 2007, the Iowa Legislature passed a law requiring used motor vehicle dealers to complete the 8-hour continuing education courses for licensure and a topical 5-hour license renewal course every two years.

These classes are offered in partnership with the [Iowa Independent Auto Dealers Association](#).

Dealer education classes will be held around the state of Iowa at the Iowa community colleges. Classes may be held more than once at the major community college locations. All class dates and locations will be posted on the IIADA website
