

Architect's rendering of the new Health Professions Center on SCC's West Burlington campus

The new *Health Professions Center* under construction on the West Burlington campus will be a state-of-the-art facility that brings together all of SCC's healthcare programs into one location. The two-story facility will essentially be a virtual hospital, complete with patient simulation labs, an innovative SCALE-UP classroom equipped with technology designed to accommodate a variety of teaching and learning methods, and an ambulance simulator. The center will also feature student study spaces and a coffee bar.

Project cost: \$10.4 million, building & equipment

Total square feet: 38,000

Features:

- Centralized health program facilities
- State-of-the-art patient simulation labs
- SCALE-UP classroom
- EMT training ambulance simulation room
- Faculty offices and student study spaces
- Coffee bar

BUILDING the DREAM

Building the Dream is SCC's new comprehensive infrastructure expansion initiative consisting of four separate projects.

Industrial Technologies Training Center

A state-of-the-art mechanical and electrical technology lab equipped with more than \$1 million in training equipment on the Keokuk campus.

Health Professions Center

A modern teaching facility serving as a virtual hospital for all of SCC's health professions programs on the West Burlington campus.

Hall of Science

A new facility with labs and classrooms for SCC's physical and life science programs as well as faculty and student space on the West Burlington campus.

Blackhawk Student Center & residence halls

An activity center, multi-purpose gymnasium, and residence hall on the West Burlington campus.

Architect's rendering of the Health and Sciences Complex on SCC's West Burlington campus

The Health Professions Center is part of the new Health and Science Complex to be located on the south side of the West Burlington campus.

Take a ride in a virtual ambulance

Want to become an Emergency Medical Technician? Study in our program and get first-hand experience of what it's like to treat patients in a working ambulance while inside our simulation lab. You'll also get to practice small-space, window, and door patient transport and rescues.

SCALE-UP your learning

It's not all textbooks and whiteboards anymore. Learn in the next generation of classrooms in our SCALE-UP room. Work in teams on projects using a complete array of multimedia tools right at your fingertips.

Meet the Sims

Book learning and theory will only get you so far. That's why SCC incorporates state-of-the-art patient simulation training into our health programs. Learn medical procedures, perform diagnostics, and practice patient care on realistic man, woman and baby patient simulators.
