#### A Beauty

Angelwolf Perez, Di Dante Secretary

A beauty you stare and steal a glare  
 These aren't yours  
 But you stare  
 Taking in what you may dare  
 Every freckle or beauty mark that lays there  
 He or she -- this is shared.  
 You stare in wonder --

What  
 is  
 it?

Maybe the way one's lips curl  
 into a kind smile  
 or the stranger's eyes sparkle, linger awhile  
 Handsome and lovely  
 This beauty is unearthly

It is beautiful to be kind  
 Stare all you want

But know most of all you are beautiful

Even on the days you want to shout  
 The **most kindness** needs to be done  
**To yourself** in and out

Eyes wonder, thoughts pass, whispers  
 are spoken

Maybe the room feels small  
 Worries may plague the air  
 This may not always be fair

But every time someone will be there

# DO YOU KNOW THE SIGNS?

You might be looking at  
human trafficking if you see:

Signs that prostitution is taking place

Women or children looking fearful,  
disheveled or crying

Multiple cars and different men  
continually going in and out of a  
residence

Someone being controlling,  
threatening or even violent with  
an individual

Extraordinary security measures for  
a business or home

If you see a minor selling sex

# 20 Ways to Block Mobile Attacks

Don't let your guard down just because you're on a mobile device. Be just as careful as you would on a desktop!

**WiFi**

- Don't allow your device to auto-join unfamiliar networks.
- Always turn off WiFi when you aren't using it or don't need it.
- Never send sensitive information over WiFi unless you're absolutely sure it's a secure network.

**Bluetooth**

- Disable automatic Bluetooth pairing.
- Always turn it off when you don't need it.

**Smishing (phishing via SMS)**

- Don't trust messages that attempt to get you to reveal any personal information.
- Beware of similar tactics in platforms like What's App, Facebook Messenger Instagram, etc.
- Treat messages the same way you would treat email, always think before you click!

**Vishing (voice phishing)**

- Do not respond to telephone or email requests for personal financial information. If you are concerned, call the financial institution directly, using the phone number that appears on the back of your credit card or on your monthly statement.
- Never click on a link in an unsolicited commercial email.
- Speak only with live people when providing account information, and **only** when you initiate the call.
- Install software that can tell you whether you are on a secure or fake website.

**Apps**

- Only use apps available in your device's official store - NEVER download from a browser.
- Be wary of apps from unknown developers or those with limited/bad reviews.
- Keep them updated to ensure they have the latest security.
- If they're no longer supported by your store, just delete!
- Don't grant administrator, or excessive privileges to apps unless you truly trust them.

**Browser**

- Watch out for ads, giveaways and contests that seem too good to be true. Often these lead to phishing sites that appear to be legit.
- Pay close attention to URLs. These are harder to verify on mobile screens but it's worth the effort.
- Never save your login information when you're using a web browser.
