She reported that no significant changes to the financial statements were required and there were no difficulties in performing the audit. Auditor Rumler reported that the college received an unmodified clean audit opinion. She reviewed financial highlights for FY 2015. Rumler explained the change in the way pension funds are reported pursuant to Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27. This does not change the amount the college pays to IPERS, it only changes the manner in which the amount is recorded.

Trustee Fife-LaFrenz moved to accept the FY 2015 audit as presented. Trustee Prellwitz seconded. Motion carried on a 5-0 roll call vote.

3.3 RESOLUTION ORDERING CONSTRUCTION OF THE NEW INDUSTRIAL MAINTENANCE TECHNOLOGY BUILDING, SETTING A DATE FOR PUBLIC HEARING THEREON AND TAKING OF BIDS THEREFOR:

Vice President Carr reviewed a construction bidding timeline and detailed budget for the Industrial Maintenance Technology (IMT) Building. The project will have an alternate to replace the existing parking lot which will be funded separately from the EDA grant proceeds. This is a prevailing wage project which will be built into the project cost estimate.

3.4 LAND LEASE AGREEMENT FOR STUDENT RESIDENCE HALLS TOWER:

Vice President of Administrative Services Carr stated that he and President Ash would present information on agenda items 3.4, 3.5, 3.6, and 3.7 as one report since these items are so closely related. After the presentation and discussion, he requested that the Trustees vote to approve each agenda item separately.

President Ash reviewed an aerial photo outlining the proposed areas for the land lease agreements for the Student Residence Halls Tower and Millennium Hall. He noted that the negotiations for this project have been a long process in order to cover all the details. President Ash explained that while the lease is for a period of 50 years, the developer must show progress within 13 years for construction of the second and third towers. If progress is not made, the college has the right to build on the land.

President Ash stated that Millennium Hall may eventually become family housing but will remain single housing for now. When the new Student Residence Halls Tower is completed, Winegard and Witte Halls will remain until they are no longer needed as addressed in agenda item 3.7 – Side Agreement.

Vice President Carr reported that the land lease agreement follows Iowa law for community colleges which only allows a 20-year lease term per Dillon’s rules. To abide by the law, the lease provides for one renewable 20-year lease term and one 10-year lease term. Vice President Carr noted that although Campus Community Developers (CCD) had originally requested a 99-year lease, Iowa law only allows a 50-year lease.

Vice President Carr stated that according to the terms of the lease, a student resident is defined as such after the first 30 days of a semester. The college must make payment to CCD within 45 days of the beginning of the semester for students residing in the Tower. The college will
improve its process for collecting non-refundable payment from student residents by the 30th day to reduce its financial risk. CCD bears the risk of unfilled beds.

Vice President Carr reported that the lease agreement contains the language the college felt was important regarding food service: balanced, variety, well-diversified, with SCC approval. CCD must provide the college with a food service plan by May 15. If they are unable to provide a plan, the college will continue its current food service contract with Consolidated Management.

During discussion, Vice President Carr noted that the substantial design changes for the Tower must be approved by the college. He also noted that the college will pay for the demolition of Winegard and Witte residence halls if the demolition is deemed necessary. Vice President Carr stated that if CCD has not provided a satisfactory food service operation by 2018, the college can move forward with its own food service provider.

7:35 p.m. President Ash left the meeting.
7:38 p.m. President Ash returned to the meeting.

Vice President Carr reported that CCD believes they can complete the Tower by August 2016 since its off-site modular construction will begin this winter. He indicated that upon approval by the Trustees of the land lease agreement, CCD will proceed with final financing arrangements followed by execution of the lease agreements.

3.8 RESOLUTION ACCEPTING PUBLIC IMPROVEMENTS – SCC INTERIOR RENOVATION PROJECTS – WEST BURLINGTON AND KEOKUK CAMPUSES:
Vice President of Administrative Services Carr reported that because the Interior Renovations project total cost is over $135,000, the college is required to take official action to close out the project. He stated that the project is complete. Vice President Carr reviewed the Resolution Accepting Public Improvements for the SCC Interior Renovation Projects at the West Burlington and Keokuk Campuses and the total costs for both locations: $49,000 for furniture, $332,000 for construction, $24,406 for architectural and legal fees, $25,000 for one change order due to the addition of fire rated glass for the Library.

After reviewing the background information provided on both nominees, she recommended that the Board of Trustees confirm the following individuals for the 2016 Distinguished Alumni awards:

President Ash reported that in order to qualify for FEMA funds for a safe room, the college learned that it needs to be listed as a participant in a regional disaster recovery plan. SCC has joined a group of entities which includes Des Moines and Lee Counties which will enhance its disaster recovery planning efforts. A formal affirmation from the Board of Trustees is required
to support this effort which will allow the college to be eligible for FEMA funds for a safe room in the future.

Trustee Fife-LaFrenz moved to approve the resolution adopting the Des Moines County Multi-Jurisdictional Pre-Disaster Mitigation Plan update, 2015. Trustee Heland seconded. Motion carried on a 5-0 roll call vote.

4.1 IOWA DEPARTMENT OF EDUCATION ACCREDITATION VISIT REPORT:

President Ash introduced Vice President of Academic Affairs Dr. Carole Richardson and expressed appreciation to Interim Dean of Career and Technical Education/ Director of Accreditation, Assessment & Articulation Jan Wolbers for her work in preparation for the accreditation visit.

Vice President Richardson distributed a schedule for the November 19 and 20 Department of Education (DOE) Interim Accreditation Visit. Prior to the visit, the DOE evaluators conducted a desk review of documents uploaded by Interim Dean Wolbers. The result of the visit is that SCC is recommended for re-accreditation. Vice President Richardson reviewed strengths and recommendations noted by the DOE.

Vice President Richardson reported that the college received a compliance finding regarding faculty credentials. Work on aligning faculty credentials with the DOE guidelines is underway with a deadline for compliance on September 2017.

The DOE will hold an Equity Visit at SCC in the spring of 2016. Under the Higher Learning Commission’s schedule, SCC’s systems portfolio is due in 2017 and a comprehensive visit will be held in 2018.

4.2 COHORT DEFAULT RATE:

Financial Aid Director Renae Armentrout reported that SCC’s three-year default rate for cohort year 2012 is 22.4% which is reduced from the cohort year 2011 rate of 23.5%. In federal fiscal year 2012, of the 917 students who went into repayment, 206 defaulted during federal fiscal years 2012, 2013, or 2014. Director Armentrout reported that the college contracts with Inceptia, a non-profit organization which provides expertise in student loan repayment, analytics, default prevention and financial education to students. Inceptia has anticipated that SCC’s default rate for cohort year 2013 will be approximately 21.26% based on the data trend for the past four years. SCC has the fourth highest default rate compared to the other Iowa community colleges. Director Armentrout reviewed plans for next year regarding improving the default rate including holding a Default Prevention Week, reminder phone calls and letters on a monthly basis, and exit counseling for students who withdraw from classes.

4.3 PRESIDENT’S REPORT:
President Ash reviewed details including revised materials and color schemes for the new Residence Hall Tower building. He explained that the building would be built offsite in modular sections during the winter (as illustrated by a PowerPoint with architectural renderings.) The sections will be set in place in the spring following construction of the building’s foundation.

President Ash reported that he met with the College County Fair Service Agency (CCFSA) and the Des Moines County Fair Association Board of Directors to review the plans for the Residence Hall Tower building, the indoor sports complex, and a new parking lot which would be located on CCFSA property. The parking lot will replace parking that will be lost due to construction of the Residence Hall Tower building. The Des Moines County Fair Association Board members gave their input regarding the location of the parking lot which is near the south exit of the Agri Stock Arena. There were concerns that the location proposed for the parking lot may be too close to the Arena exit for horse shows. Ideas for various alternate locations for the parking lot were expressed by the Fair Association members. Another meeting will be scheduled in the near future for more discussion with the Fair Association members on this matter.
